

Win 11 Tips

Toggle Taskbar – for Desktop Icon -

C:\Windows\System32\WindowsPowerShell\v1.0\powershell.exe -NoProfile

-WindowStyle Hidden -Command "& { &

'C:\Users\%USERNAME%\Documents\CustomScripts\ToggleTaskbar.ps1' }"

msdt -id devicediagnostic

uninstall KBs for SSD hard drives

winget upgrade --all

Problem Updates

KB 5063878

KB 5062660

KB 5066835 on 25H2 mouse not working for Cmd & UEFI with restart in Recovery Mode

If Num Lock is not available in UEFI / BIOS:

Open Regedit

Backup Registry

Navigate to: HKEY_USERS\DEFAULT\Control Panel\Keyboard.

Double-click it InitialKeyboardIndicators at right, change the Value data to 2
